

The Best Designed Dampening System

for the ultimate in dampening

Revelation Split Limb

The New Revelation Split Limb Dampeners could be the end to vibrations in your split limb bow.

Dampener #2025

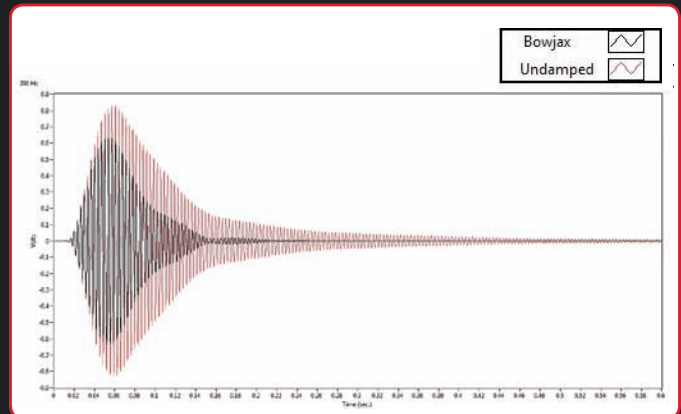

Monsterjax Solid Limb

Limb Dampeners #1022

Monsterjax uses 6 arms that vibrate at different frequencies to dampen the vibration and contact the limb of a bow. They come with a strong weatherproof double-stick tape. Odorless. Weigh 167 grains each. Patent #7,703,449

Wouldn't you want your bow dampened with BowJax Limb Dampeners?

*Red = without limb dampeners
Black = with BowJax Limb Dampeners*

**the above graph is a test done by a 3rd party University with a 60 lb. bow.*

Magnum Rizrjax

Dampeners #1027

Magnum Riser Dampeners have six dampening arms, with two of the arms at a shorter length to vibrate at different frequencies for an extremely quiet riser. Designed for the customers who demand a quiet bow!
